PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in designing and implementing responsive, user-friendly web applications using React, Next.js, and Tailwind CSS. Skilled in converting designs into high-performance, SEO-optimized websites with a focus on accessibility and user experience.

PROJECTS

Svella Ecommerce - Reactjs | NextJs | TypeScript | TailwindCSS | Sanity Cms | Clerk | Stripe | Playwright [Live Site](#)

- Designed and developed an e-commerce website with a focus on user experience and security.
- Implemented features to support product browsing, secure payment processing, and order management.
- Optimized site performance by implementing CSR, SSG, and SSR, reducing initial load times by 20%.
- Conducted end-to-end testing using Playwright to ensure a seamless, bug-free user experience across all functionalities.
- Wrote and executed test cases for critical workflows, including user authentication, payment processing, and cart management, ensuring reliability and scalability.
- Ensured a secure shopping experience through robust authentication (Clerk) and rigorous testing of all user interactions.

The News Hub - ReactJs | NextJs | TypeScript | TailwindCSS [Live Site](#)

- A news delivery platform with real-time search for discovering articles based on user interests.
- Integrated media stack APIs for dynamic content fetching, reducing article load time by 20% and providing a seamless, real-time news browsing experience.

Food ordering - Javascript | React Native | Redux ToolKit | Firebase | Stripe [GitHub](#)

- Developed a cross-platform food ordering Mobile application using React Native, enhancing user engagement and delivering seamless functionality across both iOS and Android platforms.
- Implemented an authentication system, including login, registration, and password reset functionality, enabling users to securely manage their accounts.
- Enabled users to manage their account information, including editing and changing addresses, emails, and passwords.
- Utilized Redux Toolkit for efficient state management and Firebase for real-time storage and authentication, streamlining order processing and enhancing app performance.
- Integrated Stripe for secure payment processing, ensuring smooth and reliable transactions for users.

SKILLS

Html, CSS, JavaScript, TypeScript, ReactJs, Next.Js, React Native, TailwindCSS, Firebase, Supabase, SQL, Jest, Playwright, Postgresql, NodeJs, Java, Git, Github, Bash Scripting, Linux, Photoshop, Figma.

EDUCATION

Bachelor of Technology (B. Tech) - Computer Science
Aditya College of Engineering, Surampalem, India

Nov 2020 - April 2023

Diploma - Computer Science
Prasiddha College of Eng & Tech, Amalapuram, India

July 2017 - April 2020
